present, Roung have present a continuous per personal property of this space.

At the back of the "Chantier des Bloor" works and sheds are being built and this space will in two years' time be the Canal Company's ateliers, and the floating dock is to be placed close by. The old atelier will be dresled out and is to be used for local craft, for which the Basin Cherft is far too small owing to the growing local traffe.

Bloods are on the plans all along the new Libert and the property of the continuous and the continuous and colors for his and between the railway and colors for his office and wannious.

At present some 150 to 200 tons of outon are shipped here per week, but it is quite probable, that with the unrivalled opportunities shippens have here to despatch their goods practically anywhere, the trade will greatly increase.

The sum allowed in the Budget for "im-

ALCO HOLMES.

It will come as a great shock to the many friends of Mr. Alec Holmes, laspector of the Salt and Soda Company, to learn that he uncombed early on Weshneday morning to an attack of plenity, from which the substance of the saltack of plenity, from which the saltack of plenity, from which all been suffering for but a short time. Up to Tuesday revening hope had been enterties of his recovery, but towards night a change for the worse set in, and he passed quies way just as dawn was breaking. Mr. Holmes was greatly under the saltack of the saltack

EGYPT AND THE VATICAN.

QUESTION OF LOCAL HIERARCHY.

THE KHEDIVE.

The Khedive, after his visit to England, will proceed to Paris and then to Switzerland for his usual stay at Divonne.

Brewster Bey, English Secretary to the Khedive, is leaving Advandria on Thursday next by the Plorio-Rubattino steamer for Naples, whence he will proceed to Paris to rejoin his Highness.

The Legislative Council met yesterday and passed the regulations concerning dogs and rabies, as well as the draft decree for the extension to all lands in Egypt of the prohibition to irrigate sharehallands. The regulations concerning Marsa Matrouh were withdrawn by the Government.

The Council adjourned to another sitting the examination of the modifications to be introduced in the Recruiting Law as regards the examinations of "fikis."

THE FIKI QUESTION.

The railway is doing wait and there seems to be intitle reason to doubt that the not receipts will amply suffice to pay the summer to be little reason to doubt that the not receipts will amply suffice to pay the summer to be little reason to doubt that the number of passengers. During the last ax mouths of 1902, the receipts from passenger traffic were L.E. (5,000 a year. There has been a notable merease in the number of passengers. During the last ax mouths of 1902, the receipts from passenger traffic were L.E. (5,019; in 1903—when the change of gauge had been partially effected—the receipts for the corresponding period rose to L.E. 17,730; in 1904, they were L.E. 18,737. It is to be observed that the heaviset passenger traffic were the corresponding period rose to L.E. 17,730; in 1904, they were L.E. 18,737. It is to be observed that the heaviset passenger traffic were the corresponding period rose to L.E. 1975; in 1904, they were L.E. 18,737. It is to be observed that the heaviset passenger traffic were the corresponding period rose to L.E. 1975; in 1904, they were L.E. 18,737; in 1904, they were large the large traffic were an advantage of the second of the second that the goods traffic began receipts from the country to a second traffic began receipts from the traffic of the year receipts from th
