SATURDAY JUNE 3 1905

THE SUEZ CANAL.

THE BUEZ CANAL.

Last week the balance dividends to be paid by the Suc Canal Company for 1904 were amounced. These showed a very considerable increment, giving rise to expectations of an early realisation of the hope, expressed by the chairman at the meeting last Juna, that a reduction of 50 centimes per ton in the transit does might be possible. A needstoon of this case might be possible. A needstoon of the season which are the control of 1903, bet, thanks to the growth in number and tonings of vessels using the waterway, the and tonings of vessels using the waterway, the decline in receipts was insignificant—only from fra10,7 20,000 to fra1,05,002,08. Scoon miss in working eashbed the company to enlarge its dividends for 1903, frast being added to the distribution on the Ordinary and redeement hance and firs. 20 to the amount falling to the Founders. Now the total dividend, which was fra 130 net for 1903, in advanced to fra. 140 ne for 1904 on the Ordinary shares of fra.500 and the Founders receive frame 6.07 use, against fra. 60,60 for the proceeding year. 31 celless to say,

these rates are far and away the highest ever paid by the undertaking ; indeed, the net divi-dend—that is, after deduction of taxes— exceeds the gross dividend of 1903, which was the previous best. The sum distributed in excess dividends to shareholders and founders the previous best. The sum distributed in cross dividends to sharsholders and founders will be nearly £2,300,000. Irrespective of the Egyptian Government's 15 per out, of the net profits (belonging since 1880 to a French company which bought it from the Government) and of the 5 ger cont. interest payable on each turnedemend share. The accounts on the company have not reached us; but the annual return to Parliament, issued last, week, shows that the transit receipts rose over fix. 12,000,000, to Fallisment, issued the system of 1900,000,000 to 115,518,414—284,454 to long streat than that of 1903, and about 500,000 tons of this is attributed to the configurance of cost to the Far East for the use of the belligreents. That, of P.T. 2314 per annum. P.T. 116 for six transcent. P.T. 130 for three months. To other countries in the Pestal Union P.T. 973 countries in the Pestal Union P.T. 973 (20.19a.)
